

How to Create a Stand-Out Resume?

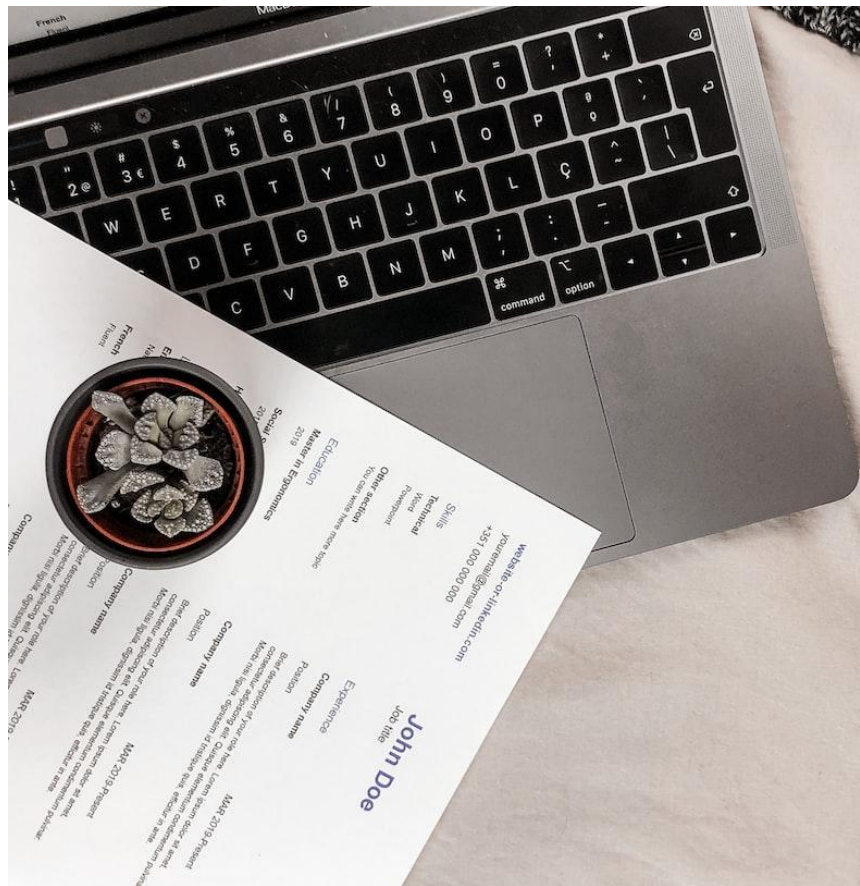

A resume is a key document in the professional world, serving as a snapshot of your qualifications, skills, experience, and accomplishments.

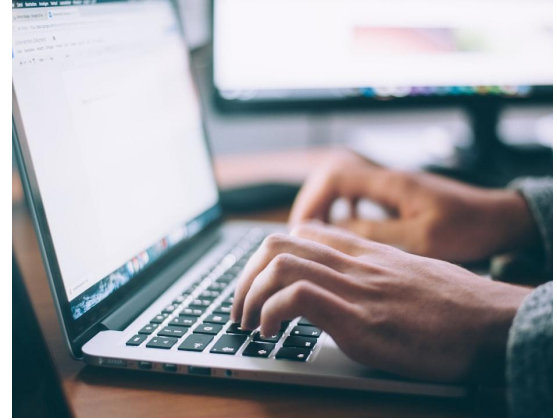

Crio.**Do**

Agenda Of the Session

- Understanding features of Good resume
- How to create a good resume?
- Templates for Resume
- Evaluating Your Resume

Understanding features of Good resume

Compare the resumes given on next slide to understand the features of a good resume

FOR WORKING PROFESSIONALS

EXPERIENCE

Software Developer

PredictVu

10/2021 - Present Bangalore, India

EV PLUS (EV Charging Station Platform) - [Playstore Link](#) | [AppStore Link](#)

- Developed key screens such as Home, Profile, Reviews, and Station Details based on Figma designs
- Revamped the application architecture to make it modular and maintainable, enabling easier updates and changes to the API structure on the backend
- Separated concerns by following the **Single Responsibility Principle (SRP)** and separating code into smaller, more focused components
- Utilized container and presentational components to separate business logic and UI rendering for better code organization and reusability
- Utilized static type checking with **TypeScript** for better code reliability and readability
- Managed API calls and **Redux** state management with **Rematch**, resulting in a more intuitive and efficient user experience
- Integrated **Google Maps API** for real-time location of EV Charging Stations with respect to the user's location
- Implemented **Feature Flags** to toggle features on/off based on requirements
- Implemented **Codepush** for OTA updates and **Firebase Crashlytics** for crash and error reports, reducing app crashes by 25%
- Tech Stack: **React-Native, Native Base, Rematch, NodeJS, ExpressJS, MySQL**

MBII - [Playstore Link](#) | [Website Link](#)

- Designed and developed the user interface for the SubUser and Profile Feature using **React-Native** and **Native Base**
- Implemented UI and functionality for Invoice PDF Download in different Formats
- Implemented a search Invoice feature with **pagination** in the MBII application, allowing for quick and easy access to specific invoices
- Worked closely with the QA team to resolve bugs and issues related to the front-end and ensure that the application meets the expected level of quality
- Tech Stack(Android): **React-Native, Native Base, Redux**
- Tech Stack(Web): **ReactJS, Material UI, Redux**

Product Engineer

Tejas Networks

08/2021 - 10/2022 Bangalore, India

- Developed a comprehensive website to display real-time status of nodes, connections, and services for the NMS and EMS
- Designed and implemented a user-friendly interface using **HTML, CSS** and **JavaScript, React**
- Utilized **RESTful APIs** to fetch and update data from the NMS and EMS
- Real API** Automation for testing various usecases in **L2, GPON, ERPS** technologies

Fellowship in FullStack Development

CRIO

12/2021 - 09/2022

Portfolio Link

- Gained a deep understanding of web development concepts such as **RESTful APIs, server-side rendering(SSR)**, and **database management**
- Developed proficiency in popular development tools such as **VS Code, Git** and **Postman**
- Developed a solid understanding of software engineering best practices, including version control, testing, and debugging
- Implemented unit tests and end-to-end tests using **Jest** for better test coverage
- Tech Stack: **HTML, CSS, JS, Bootstrap, React, Material UI, NodeJS, ExpressJS**

SKILLS

Languages

HTML CSS JavaScript C++

Technologies/Frameworks

ReactJS React-Native Redux
Rematch MaterialUI NativeBase
NodeJS Jest

Tools

VS Code Git Postman Figma
Firebase Chrome Developer Tools
CodePush Google Play Console JIRA

EDUCATION

B.Tech (Information Technology)

Odisha University of Technology and Research

2017 - 2021

CGPA
8.7 / 10

PROJECTS

QKart (E-Commerce Application)

[https://aish-qrart-frontend.netlify.app/](#)

- Tech Stack: **React, Material UI, Node JS, Express JS, MongoDB, Mongoose, Netlify, Heroku**
- Developed the frontend with **React Components, React Hooks** and **React Routing**
- Incorporated component styling with **Material UI**
- Implemented custom API routes with request validations in the **Node JS** backend server
- Built the backend with layered structure with **Express JS** framework
- Integrated the backend server with **MongoDB** to handle **CRUD** operations
- Coordinated API requests through **JWT** validations and authentication with **JWT** and **Passport.js**

XFlix (Video Streaming Platform)

[https://xflx-aish-netlify.app/](#)

- Tech Stack: **React, Node JS, Express JS, Mongo DB, Mongoose, Netlify, Heroku**
- Developed the frontend with **React Components** and **React Hooks**
- Built the API routes with the help of **Express JS** framework
- Integrated the backend with **MongoDB**

Work Experience

Informatica, Associate Software Engineer

Oct 2020 - present

Working on Informatica Intelligent Cloud Service(ICS) - GCS Team

- Troubleshoot and Fix customer issues, in a well defined SLA
- Provide feedback and report bugs/enhancement requests to Engineering Team
- Efficiently handled 135+ tickets for the issues related to ICS which involves independent analysis of logs, reproduction of issues and finding solution

Internship

Orane Consulting Pvt. Ltd., Summer Intern

Jun 2019 - Jul 2019 | Noida

- Revamped the UI from Scratch of **MyJoining** using Angular Material
- Implemented a feature that allowed onboarding of multiple candidates at a time by uploading excel worksheet
- Worked on Backend for Dynamic Form Builder Module

Education

Bundelkhand Institute of Engg. & Technology,

B. Tech Computer Science and Engineering

2016 - 2020 | Jhansi

Certificates

Core Java (DUCAT Education | Jul, 2017)

Mastering Git (Pluralsight | Mar, 2019)

Spring Fundamentals (Pluralsight | Apr, 2020)

Problem Solving (Basic) (HackerRank | Jun, 2020)

Java (Basic) (HackerRank | Jun, 2020)

Problem Solving (Intermediate) (HackerRank | Sept, 2020)

Project Based Learning

Crio, Student Developer, Launch & Launch Plus 2020

Jan 2020 - Aug 2020

Certificate

Online merit based applied learning program to acquire skills in Java, Databases, OOPs, REST API, Data Structure, Spring Boot and more.

Projects:-

Quiz Application

- Created API which supports following operations:-
 - Fetch the quiz questions for given module
 - Submit user answers and return evaluation
- Developed unit tests using JUnit

Crio QEats, Backend for a Food-Ordering App

- Implemented feature to retrieve restaurants for a given user location

Skills Learned - Spring Boot, Spring Data, REST API, Jackson

Crio QMoney, A visual stock portfolio analyzer

- Implemented the core logic of the portfolio manager
- Skills Learned: Java, REST API, Jackson, Interfaces, Code Refactoring

Skills

Java Git SQL Algorithms
HTML Spring Boot

Courses/MOOCs

Divide and Conquer, Sorting and Searching, and

Randomized Algorithms, Stanford University

Dec 2018 | Coursera

Java for Android, Vanderbilt University

Oct 2018 | Coursera

Crio.Do

FOR FRESHERS

Software Developer

+91-812-222-2222 | [Github](#) | [LinkedIn](#) | [Portfolio](#)

Skills

OS: Linux
Languages: Java, JavaScript, HTML, CSS
Technologies/Framework: React.js, React hooks, REST API, Bootstrap, Flexbox, Heroku, Netlify
Tools: Git, Postman, Chrome Developer Tools, Figma

Projects

QKART FRONTEND [\[Demo Link\]](#) [Apr'23]
Skills: React.js, REST APIs, Material UI, Debouncing, Bearer Token, Netlify

- Implemented the core logic for authentication, shopping cart, and checkout of an E-Commerce application with popping messages using **not stack** snack bars
- Improved UI by adding responsive design elements for a uniform experience across different devices
- Utilized **REST APIs** to load and render data served by the backend server
- Loading the products, add to cart, and checkout page as per authorization with search bar using **debouncing**

QTRIP [\[Demo Link 1\]](#) [\[Demo Link 2\]](#) [Jan'23 - Mar'23]
Skills: JavaScript, HTML5, CSS3, Bootstrap, Wireframe, Dynamic webpage, DOM Manipulation, Netlify, Render

- A travel website made using **HTML**, **CSS**, **Bootstrap**, and **JavaScript** that can be used to browse different cities, and adventures and make reservations
- Improved UI/UX with multi-select filters, forms, image carousels, and conditional rendering of page elements
- Utilized local Storage to persist user preference at client-side and facilitated reservation form submission using **fetch API**
- Deployed the website using **Netlify** for Frontend and Render for Backend

XBOARD [\[Demo Link\]](#) [Mar'23]
Skills: HTML5, CSS3, Bootstrap, Figma, JavaScript,

- Created a web page for **XBoard**, to show news articles
- Invoked **API** to fetch the necessary data from Flipboard's RSS feed and integrate that into the web page
- Developed the desktop and mobile views with reference to the **Figma** design
- Enhanced the user interface by setting each section into an accordion style and incorporating image carousels

Certifications

- Google Analytics** [Feb'23]
- LinkedIn Generative AI** [July'23]

Achievements

- Participated in Hackathons and Coding Competitions
- Participated and won prizes in Quiz competitions at school and University level

Education

B.E | Chirithu Jyothi Institute of Technology & Science | Jangoan, Telangana [2023]
Percentage: 57%

Diploma | Bomma Institute of Technology & Science | Khammam, Telangana [2015]
Percentage: 75%

EDUCATION

JAMSHEDPUR WOMEN'S UNIVERSITY
B.Sc. In Information Technology | Grad. July 2023 | CGPA : 9.39

ST. XAVIER'S GIRLS INTER COLLEGE CHAIBASA
PCM with Computer Science | Grad. Mar 2020 | Per : 75.6%

ACHIEVEMENTS

ACADEMICS

- 2nd in Science Exhibition In Class X.
- 1st in Talent Search Competition in Class IX.

OTHERS

- Teaching
- Novels Reading

Features of a Good resume

- All the necessary links are present and clickable
- All the experiences and projects are mentioned in a concise manner
- All the skills are mentioned
 - Skills are categorized into languages, tools, Database and web technologies
 - Skills are mentioned in every experience and projects
- All the general info is mentioned
- Mention the open source projects (if done)
- Certifications should have clickable links(if any)

Crio.Do

How to Create a Good Resume? - Step 1

General Info

- **Full Name**
- **Phone Number**
- **Email Address**
- **LinkedIn Profile (Must)**
- **Crio.Do Portfolio(Must)**
- **Github profile(Must)**
- **Leetcode (optional)**

Summary/Objective - Step 2

- **Resume summary - For working professionals**

The summary is a broader overview of your professional experience, skills, and accomplishments. It is more focused on showcasing what you've achieved in your career

- **Resume Objective - For freshers**

Objective is a concise statement outlining your career goals and the type of position you are seeking

SUMMARY

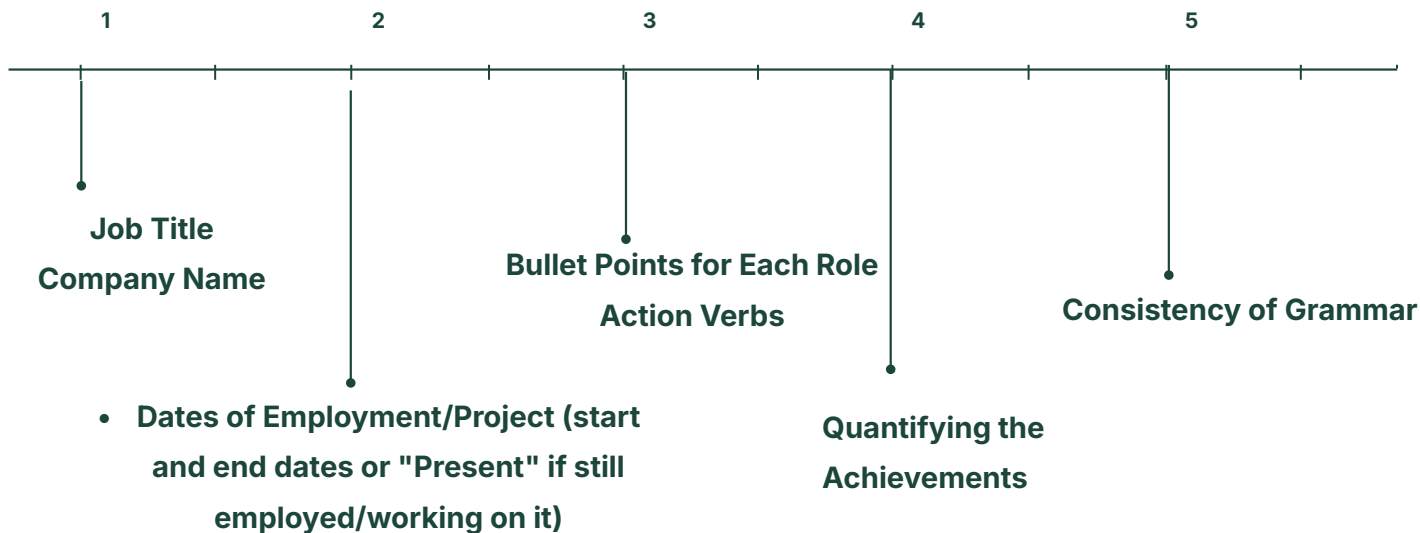

Results-oriented software engineer with 3 years of experience specializing in full-stack development. Strengths include:

Proficient in a wide range of programming languages, including Java, Python, and JavaScript. Well-versed in modern web frameworks such as React and Node.js. Adept at designing and implementing scalable and maintainable software solutions. A strong background in database management, RESTful API development, and cloud technologies like AWS.

13. A motivated individual, having core knowledge of the language and developing tools, looking forward to working in a multi-national company where I can cultivate my skills to add value to the company and scope to enhance my own skills.

Experience/Projects – Step 3

STAR Method

The STAR method is a structured approach to answering interview questions or showcasing achievements on a resume. It stands for Situation, Task, Action, and Result

S

SITUATION

AS A SENIOR SOFTWARE DEVELOPER AT XYZ COMPANY, I WAS TASKED WITH LEADING A TEAM TO **UPGRADE OUR INTERNAL PROJECT MANAGEMENT APPLICATION** TO IMPROVE EFFICIENCY AND FUNCTIONALITY.

T

TASK

MY PRIMARY GOAL WAS **TO ENHANCE THE APPLICATION'S PERFORMANCE**, ADD NEW FEATURES REQUESTED BY STAKEHOLDERS, AND ENSURE SEAMLESS INTEGRATION WITH OTHER COMPANY SYSTEMS.

A

ACTION

I ASSIGNED SPECIFIC TASKS TO TEAM MEMBERS BASED ON THEIR EXPERTISE AND ESTABLISHED A TIMELINE FOR COMPLETION. THROUGHOUT THE DEVELOPMENT PROCESS, I CONDUCTED REGULAR CODE REVIEWS, PROVIDED GUIDANCE ON TECHNICAL CHALLENGES, AND ENSURED ADHERENCE TO BEST PRACTICES

R

RESULT

THE UPGRADED PROJECT MANAGEMENT APPLICATION WAS SUCCESSFULLY DEPLOYED AHEAD OF SCHEDULE, **LEADING TO A 30% INCREASE IN TEAM PRODUCTIVITY.**

1. Some name for the ME

QEats

[Demo Link](#)

2. Demo link if any (recorded video or deployed url)

3. Duration

[Dec'20-Jan'21]

4. Skills

Skills: Java, REST, Spring Boot, MongoDB, Redis, JUnit, Mockito, MVCS, Spring Data

- Built 7+ REST APIs for a food ordering app
- Implemented **MVCS framework** to accept API requests based on user locations and return a list of restaurants.
- Used **Redis Cache** to address the challenge of retrieving repeated data from MongoDB.
- Used **MongoDB queries** to enable users to search for restaurants using attributes like name, cuisine, and dish.
- Added **search support** to map a list of restaurants to specific user requirements.
- Boosted the app's performance by using **multithreading** to run parallel search queries.

5. What did you do

Crio.Do Projects – Step 4

Ensuring all the details are given in precise manner.

Why Github portfolio?

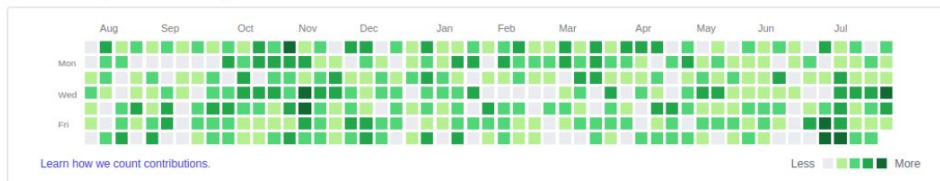

Before 🙄 🙄 🙄

69 contributions in the last year

After 💪 😊 ❤️ 🕶️ 🤘 🐎 😄 🔥 🦸 🎅 🌟 🍒 🎉

1,761 contributions in the last year

1. Dynamic portfolio that showcases expertise and contributions
2. It offers evidence of coding abilities, problem-solving skills, and fosters learning through open-source collaboration
3. Tech companies rely on GitHub to evaluate potential hires

Why LinkedIn Profile serves as Digital resume?

1. They serve as digital resumes, enabling professionals to highlight their skills and experience
2. They connect with recruiters and employers actively
3. Profile enhances visibility and professionalism, opening doors to career opportunities.

Evaluating a resume

1. Requesting a review from your colleague/ friends/ family members etc
2. ATS score on "resumeworded.com"
3. Crio.Do Career services team review

Open the site - <https://resumeworded.com/account-login.php?next-page=target-start>

1. Copy/Paste one of the Job Descriptions based on the role you are looking for:

- [Frontend JD](#)
- [Full-stack JD](#)
- [Backend JD](#)

2. Paste your resume

Continue with next steps to generate the score. See to that your score is **>60 in the skills section**. If it is not going past 60 for the skills section, make sure to let the Crio career-services people know.

Questions?

- Career break
- Changed Job multiple times
- Experience in the Non-IT role
- 1 page or 2 page resume?
- Have multiple projects

We would love to hear your thoughts: [Feedback](#)
